

1 convert rupees into dollars

```
#include <stdio.h>
int main() {
float dollars, rupees;
printf("Enter the amount in rupees");
scanf("%f", &rupees);
dollars = rupees/48;
printf("%f rupees is equal to %f dollars", rupees, dollars);
return 0;
}
```

```
Enter the amount in rupees96
96.000000 rupees is equal to 2.000000dollars

=== Code Execution Successful ===
