

1 convert grams into kg

```
#include <stdio.h>
int main() {
    int grams , kg ;
    printf("Entr the amount in grams");
    scanf("%d", &grams);
    kg = grams / 1000;
    printf("%d grams is equal to %d kg", grams,  kg);
    return 0;
}
```

```
Enter the amount in grams5000
5000 grams is equal to 5 kg

=== Code Execution Successful ===
