

## 1 convert dollars into rupees

```
#include <stdio.h>
int main() {
float dollars, rupees;
printf("Enter the amount in dollars");
scanf("%f", &dollars);
rupees = dollars*48;
printf("%f dollars is equal to %f rupees", dollars, rupees);
return 0;
}
```

```
Enter the amount in dollars5
5.000000 dollars is equal to 240.000000 rupees

=== Code Execution Successful ===
