# 1 calculate area of triangle

```c
#include <stdio.h>
int main() {
int Area, Base, Height;
printf("Enter the Base");
scanf("%d", &Base;
printf("Enter the Height");
scanf("%d", &Height;
Area = (Base * Height) / 2;
printf("Area of Triangle = %d", Area);
return 0;
}
```

```
Enter the Base40
Enter the Height10
 Area of Triangle = 200

=== Code Execution Successful ===
```
